Hi! I'd like so much you know my dissertation because the issue is very important to health people. It is related to cancer research in mice. There are very interesting, important and innovative data about it, like graphics related to variations of all mice weights I did during all experimental time. These graphics can be an excellent and very important reference for future researches. Thank you for your attention. Have a good day! Greetings from Brazil. Link: <https://ciencia100.wordpress.com/2018/02/26/my-dissertation-the-influence-of-physical-activity-in-the-progression-of-experimental-lung-cancer-in-mice-2/> Note: The disclosure of it is essential for the development of science, technology and innovation of the nation.
